martine.gibbons@wrcplc.co.uk

Fax to : 01793 865001

Post to : Martine Gibbons
WRc plc
Frankland Road
Blagrove
Swindon SN5 8YF

The Building Regulations set standards for the design and construction of buildings, primarily to ensure the safety and health for people in or around those buildings.

A new edition of Part G (Sanitation, hot water safety and water efficiency) will be laid before Parliament in March 2009 and will come into force in October 2009.

The new edition will bring about significant changes to the design of hot and cold water supplies in buildings. It will support sustainability by:

- specifying applications where “non wholesome” water might be used in buildings, such as the use of captured rainwater for toilet flushing; and
- introducing a water efficiency standard for new homes of no more than 125 litres per person per day when assessed using the specified water calculator.

This one-day briefing provides a detailed understanding of the changes to Part G of the Building Regulations in England and Wales. The workshops are being held in June/July to allow you to prepare for the changes and the opportunities that this new edition offers in terms of allowing new technology and benefits to householders.

Programme

09.30 Registration & refreshments & exhibition

10.00 Overview by CLG

Why change? Links to other Codes and Regulations. Going forward - timetable for introduction and future review.

10.30 What's new in Part G

New Regulations and Guidance. Structure of the Approved Document G and use of third party documents.

11.00 Refreshments & exhibition

11.30 Responsibilities for compliance with Part G

A clear and concise explanation of the responsibilities; the means of achieving and demonstrating compliance; the need for notification of building work.

11.50 Cold water supply. WCs, bathrooms and kitchens

This module will focus on what has changed and what the changes mean for you.

Questions

12.30 Lunch & exhibition

13.30 Water efficiency. Hot water systems and safety

This module will focus on what has changed and what the changes mean for you.

Questions

15:00 Close

Note: All presentations and a copy of Part G will be provided on a CD.
